EDUCATION

B.Tech in Computer Engineering Institute of Advanced Research (CGPA. 8.08)

Gandhinagar, India June 2019 - April 2023

Courses: Data Structures, Analysis Of Algorithms, Operating Systems, OOPs Concepts, Networking, Database Management System

12th Science from GSHSEB

Bhagwati Vidhayalaya (Science Percentage. 89.33%)

Ahmedabad, India March 2019

SKILLS SUMMARY

Languages: Python, JavaScript, C, C++, HTML, CSS

Frameworks: React.Js, Nodejs, Express.js,

database: MySQL, MongoDB

Technical: Data Structures and Algorithms, DBMS, OOPs, GitHub

Soft Skills: Leadership, Time Management, Teamwork

INTERNSHIP-TRAINING

ABSIDE Solutions

Full Stack Developer Intern (Full-time)

Ahmedabad Dec 2022 - April 2023

- Motivated and results-driven intern with hands-on experience in the MERN (MongoDB, Express.js, React, Node.js) stack. Developed a full-stack project during the internship, showcasing proficiency in web development.
- Designed and implemented a full-stack web application using the MERN stack, demonstrating end-to-end development skills from database design with MongoDB to frontend development with React.
- Gained proficiency in JavaScript, React, Node.js, Express.js, MongoDB, and RESTful API development.
- Demonstrated a strong commitment to learning and professional growth, continually expanding skills in web development and staying updated with industry best practices.

PROJECTS

Service Provider: (Github -Link)

- Designed and developed a full-stack service provider website, utilizing the MERN (MongoDB, Express.js, React, Node.js) stack to create a seamless booking experience.
- Incorporated essential features such as user registration and authentication, technician profiles.
- Ensured a responsive and mobile-friendly design to guarantee a consistent and enjoyable user experience across various devices and screen sizes.
- Built a reliable backend using Node.js and Express.js, managing data storage and retrieval with MongoDB, and implementing RESTful API endpoints for seamless communication.
- Conducted rigorous testing, including unit tests and user acceptance testing, to identify and rectify bugs, ensuring a stable and error-free platform.
- Developed expertise in MERN stack technologies and project management design through the creation of Service Provider.

inotebook: (Github -Link)

- Designed and implemented 'iNotebook,' a full-stack web application that allows users to create, edit, delete and securely store
 private notes using the MERN stack.
- İmplemented robust security measures to protect user data and notes, including encryption of sensitive information and secure user authentication.
- Developed a robust backend using Node.js and Express.js, with a MongoDB database, to support user authentication, note storage, and retrieval.
- Utilized MongoDB to store user-generated notes securely and developed RESTful API endpoints for seamless data interaction.

ACHIEVEMENTS ON PROBLEM SOLVING IN DSA

I Solve problems based on Data Structures and Algorithms for improving Problem Solving Skills
